CONTENTS OF VOLUME XXXII.

NUMBER I.

	PAGE
A Brief History of Bacteriological Examinations in Suppurative Otitis Media, with Remarks upon the Relative Virulence of the Various Micro-Organisms. By WENDELL C. PHILLIPS, M.D., New York	1
The Treatment of Acute Otitis Media. By Professor BEZOLD, Munich. Translated by Dr. ARNOLD KNAPP	9
Reports of Societies:	
1. Report of the Transactions of the Section on Otology of the New York Academy of Medicine. By Dr. JOSEPH KENEFICK, Secretary. Meeting of November 13, 1902	23
TOEPLITZ: Ossiculectomy for chronic suppurative otitis media, 23. PHILLIPS: Chronic otorrhoea, 24. MEIERHOF: Complete occlusion of auditory meatus by exostosis, 25. DUEL: Anatomical specimens treated by Wood's metal, 26. PHILLIPS: Mastoid retractor, 27. POOLEY: Affections of the labyrinth, 27.	
Meeting of December 11, 1902.	
LEDERMAN: Portable acetylene lamp, 29. KOLLER: Sinus thrombosis is followed by hypoglossal paralysis, 30. LEDERMAN: Chronic suppurative otitis, facial paralysis, 34. PHILLIPS: Bacteriological suppurative otitis media, 37.	
2. Report of the Transactions of the New York Otological Society. By Dr. ARNOLD KNAPP, Secretary. Meeting of November 25, 1902	39
BRANDEGEE: Case of sinus thrombosis, 39. ARNOLD KNAPP: Case of thrombosis of the jugular bulb and very severe pyæmia, 40. ARNOLD KNAPP: Specimen of an unusually distended sigmoid sinus, 41. DENCH: Hammer and incus found lying loose in the attic, 42. DUEL: Aural snare, 44. WHITING: Encephaloscope, 44.	
Report on the Progress of Otology during the Second Quarter of the Year 1902. By Dr. A. HARTMANN. Translated by ARNOLD KNAPP, M.D.	46
Anatomy, 46. General, 48. External ear, 53. Middle ear, 54. Nose, 62. Naso-pharynx, 70. Soft palate and pharynx, 72.	

Book Notices	PAGE 76
I.—Diseases of the Eye, Nose, Throat, and Ear. By POSEY and WRIGHT. Lea Bros.	
II.—Report of the Otological Society of the United Kingdom.	
III.—General Report of Otology. By GRADENIGO and BRIEGER.	

NUMBER 2.

A Brief Report of Forty Radical Operations for Chronic Purulent Otitis and Complications, with Remarks. By Dr. ARNOLD KNAPP and Dr. C. H. R. JORDAN	81
A Study of the Pathology of the Internal Ear and the Auditory Nerve. By Dr. PAUL MANASSE, Strasburg, Germany. Translated by Dr. ADOLPH O. PFINGST, Louisville, Kentucky. (With appended Plate I. from <i>Zeitschrift f. Ohrenheilkunde</i> , Vol. XXXIX., No. 1)	105
The Usual Methods of Treatment and Operation in the Ear and Throat Clinic at Rostock. By Professor O. KOERNER. Translated by Dr. ARNOLD KNAPP	112
After-Treatment of Radical Operations without Packing. By Dr. A. VON ZUR-MUEHLEN, Riga	118
An Anatomical Method of Demonstrating the Accessory Cavities of the Nose. By Dr. G. BRUEHL, Berlin	123
The Contagiousness of Acute Otitis Media. By Dr. L. WOLFF, Frankfurt-on-Main, Germany	125
The Occurrence of Rhodan in the Nasal Secretion, and its Absence in Ozena. By Dr. MUCK, Rostock, Germany	128
Entotic Murmur Due to Aneurysm of the Occipital Artery. By Dr. MUCK, Rostock, Germany	130
The Masto-Squamosal Suture. By Dr. ADERMAN, Orebro, Sweden	131
Acute Mastoiditis Complicated by Scleroderma. By Dr. M. KAMM, Breslau, Germany	133
On the Duplicity of the Accessory Sinuses of the Nose. By Dr. G. BRUEHL, Berlin. Abridged Translation	135
Are there "Variations in the Course of the Facial Nerve Having Bearing upon the Mastoid Operation"? By B. ALEX. RANDALL, M.A., M.D., Philadelphia. (With Text-plate I.)	144

Contents.

Reports of Societies:

PAGE

1. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of January 25, 1903 148

SCHMITT: Anatomical specimens, 148. WILSON: Case of epithelioma of the canal, 149. DENCH: Sarcoma of tympanum and mastoid, 149; Facial paralysis after radical operation, 150. GRUENING: Teat-like protrusion on drum-membrane, 151.

2. **Report of the Transactions of the Section on Otology of the New York Academy of Medicine.** Meeting of January 8, 1903 152

EAGLETON: Case of cerebellar abscess, 152. POOLEY: Affections of the labyrinth, 158.

Meeting of February 12, 1903 160

THEOBALD: Common sense in aural surgery, 160. ARNOLD KNAPP and JORDAN: Report on forty radical operations (published in full, p. 81), 163.

- Book Notices** 167

IV.—**General Review of the Progress of Otology.** Fifth Series, for the years 1897-1900. By Dr. L. BLAU.

- Announcement of 7th International Otological Congress.** . . . 169

- Erratum** 169

NUMBER 3.

- The Limits of Variation in the Depth of the Mastoid Antrum.** By PHILIP D. KERRISON, M.D. (With ten illustrations on Text-plates II.-V.) 171

- Intradural and Later Double Cerebral Abscess Complicating Chronic Tympanic Suppuration; Operations; Cure.** By B. ALEX. RANDALL, M.A., M.D., and BARTON H. POTTS, M.D., Philadelphia. (With a Temperature Chart) 177

- Osteomyelitis of the Skull with Empyema of the Nasal Accessory Cavities; Sinus Thrombosis; Pyæmia; Death; Autopsy.** By Dr. ARNOLD KNAPP. (With three illustrations on Text-plates VI. and VII.) 181

- A Discussion on the Differential Diagnosis and the Treatment of Osteosclerosis of the Mastoid Process.** By OTTO J. STEIN, Chicago, Ill. 190

- Three Cases of Encephalitis in Connection with Otitis Media.** By Dr. VOSS, Riga, Russia. Abridged Translation by Dr. JULIUS WOLFF, New York 202

Reports of Societies :

1. **Report of the Transactions of the Otological Section of the New York Academy of Medicine.** Meeting of March 12, 1903 208

TOEPLITZ: Perichondritis, 208. H. KNAPP: Subperi-chondrial abscess, 208. HASKIN: Iodoform poisoning, 209. DUEL: Natural exenteration of the middle-ear cavities, 210. GUTMAN: Epidural abscess, 210. LEDERMAN: Microtia, 211. HARRIS: A brief consideration of the prognosis in chronic suppurative otitis, 211. KERRISON: Variations in the depth of the antrum—Discussion, 214. Meeting of April 2, 1903.

BERENS: The symptomatology and diagnosis of the complications of chronic middle-ear suppuration, 216. MCKERNON: The treatment of the complications of chronic middle-ear suppuration, 216.

2. **Report of the Transactions of the New York Otological Society.** By Dr. ARNOLD KNAPP, Secretary. Meeting of March 24, 1903 220

DUEL: Secondary operation, 220. HARRIS: Drainage gauze tubes, 221. QUINLAN: Congenitally deformed auricle, 221; Double mastoid operation, 221. FRIEDENBERG: Persistent otorrhœa as an indication for the mastoid operation, 222. LEWIS: Removing adenoids during acute otitis, 223. DENCH: Catalepsy occurring in otitic meningitis, 225. MCKERNON: Double facial paralysis, 225.

- Report on the Progress of Otology for the Third and Fourth Quarters of the Year 1902.** By Dr. A. HARTMANN, Berlin. Translated by Dr. ARNOLD KNAPP 226

Anatomy of the ear, 226. Physiology of the ear, 226. General, 228. External ear, 236. Middle ear, 239.

- Book Notices** 254

V.—*Précis de Chirurgie cérébrale.* By Prof. A. BROCA.

VI.—*A Text-Book on the Diseases of the Ear.* By Prof. ADAM POLITZER.

NUMBER 4.

- Should the Deaf be Debarred from Accident Insurance?** By Dr. JAMES A. SPALDING, Portland, Me. 257

- Tinnitus, with a Plea for its More Accurate Musical Notation.** By Dr. JAMES A. SPALDING, Portland, Me. (With eight text-cuts) 263

- The University Clinic for Diseases of the Ear and Throat in Rostock.** By the Director, Prof. O. KOERNER. (With appended Plates XI. to XIII., Vol. XXXVI., *Zeitschrift f. Ohrenheilkunde* 273

Contents.

Three Clinical Communications to Otology. By EMIL AMBERG, M.D., Detroit, Mich.	PAGE 275
--	-------------

Reports of Societies :

1. Report of the Meeting of the German Otological Society in Wiesbaden, May 29 and 30, 1903. By Dr. HARTMANN .	284
---	-----

DENKER : Stapes-anchylosis, 284. BEZOLD : Hearing examination with tuning-forks in unilateral deafness, 286. WANNER : Functional examination in labyrinth necrosis, 286. LUCAE : Relation of tone hearing to speech hearing, 287. OSTMANN : Objective hearing measure, 288. MOXTER : Middle-ear tuberculosis, 290. SCHEIBE : Deafness in furuncle of the canal, 290. SIEBENMANN : Congenital labyrinth anomalies, 290. KRETSCHMANN : Bone in the tympanic cavity, 291. BRUEHL : Pharyngeal tonsil and auditory organ in idiots, 291. RUDLOFF : Course of the sigmoid sinus in the child's temporal bone, 291. HAUG : Gangrene of the auricle, 292. WITTMACK : Acoustic neuritis, 292. ROEPKE : Hysteria in aural suppuration, 292. HEINE : Amnesic aphasia and hemiopia in abscess of the right temporal lobe, 292. BLOCH : Scopolamin narcosis, 293.

2. Report of the Transactions of the New York Otological Society. By T. PASSMORE BERENS, M.D., Acting Secretary. Meeting of May 26, 1903	295
---	-----

GRUENING : Brain abscess, 295. BERENS : Plastic operation, 297. PHILLIPS : Specimen of temporal bone in case of purulent meningitis, 298. QUINLAN : Pain due to osteosclerosis of the mastoid, 299. BERENS : Rare arterial anomaly, 300.

Systematic Report on the Progress of Otology for the Third and Fourth Quarters of the Year 1902. By Dr. A. HARTMANN, Berlin. (Continued from page 253)	301
---	-----

Nose and naso-pharynx, 301. Soft palate and pharynx, 326.

Book Notices	332
-------------------------------	-----

VII.—*Patologia e terapia del orecchio e delle prime vie aeree (otologia, rinologia, laringologia).* By GIUSEPPE GRADENIGO.

VIII.—*First Principles of Otology.* By ALBERT H. BUCK, M.D.

IX.—*A Thesaurus of Medical Words and Phrases.* By WILFRED M. BARTON, M.D.

Miscellaneous News	335
-------------------------------------	-----

NUMBER 5.

	PAGE
On Hemorrhage from Arrosion of the Brain Sinuses in Suppuration of the Temporal Bones. By Dr. H. EULENSTEIN, of Frankfort-on-the-Main. Translated by Dr. H. KNAPP, from German Edition (<i>Zeitsch. f. O.</i>), Vol. XLIII.	337
General Sepsis in Chronic Suppuration of the Middle Ear, with a Central Perforation of the Drum. By Professor BEZOLD, Munich. Translated by Dr. ADOLPH O. PFINGST, Louisville, Ky.	349
Cheesy Empyema of the Nasal Accessory Sinuses. By Dr. ALFRED STIEDA, Königsberg, Germany. Translated by Dr. ADOLPH O. PFINGST, Louisville, Ky.	356
Two Cases of Aneurism of the Arteria Carotis Cerebri. By Dr. A. V. ZUR-MÜHLEN, of Riga. Translated by Dr. MILTON J. BALLIN, New York	364
On the Pathological Anatomy of Deaf-Mutism. By Dr. SCHWABACH, Berlin. Translated by Dr. ARNOLD KNAPP, New York	378
Recent Theories on Sound Conduction. By Dr. TREITEL, of Berlin. Translated by Dr. W. S. BRYANT, of New York	385
Report on the Progress of Otology during the First Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP.	403
Anatomy of the ear, 403. Physiology of the ear, 408.	
(To be continued)	
Book Reviews	412
X.—Ein objectives Hörmass u. seine Anwendung. (An Objective Hearing-Measure and its Use.) By Prof. PAUL OSTMANN.	
XI.—Diseases of the Ear. By E. B. DENCH, M.D.	

NUMBER 6.

A Case of Thrombophlebitis of the Cavernous Sinus, Complicating an Empyema of the Sphenoidal Sinuses and Ethmoidal Cells, Mistaken for a Thrombophlebitis of the Lateral Sinus. By Dr. C. E. FINLAY, of Havana, Cuba	419
Clinical Experiences with the Enlarged Pharyngeal Tonsil. By Dr. H. GRADLE, Chicago	422
On the Pathology and Treatment of Chronic Purulent Otitis. By Dr. SUCKSTORFF. Abridged Translation from <i>Zeitsch. f. Ohrenheilk.</i> , Vol. XLV., p. 75, by Dr. ARNOLD KNAPP	426

	PAGE
On the Causation and Prevention of Bone Necrosis in the Course of Chronic Purulent Otitis. By Dr. A. SCHEIBE, Munich. Translated by Dr. ARNOLD KNAPP	433
Manifestation of Traumatic Hysteria in the Organ of Hearing. By Dr. ERNST BARTH, Sensburg. Translated by Dr. CARL MUND, New York	443
On a New System of Hemoglobinuria: Cyanosis and Gangrene of the External Ear. By the late Dr. F. ROHRER, Zurich. Translated by Dr. ARNOLD KNAPP. (With one plate from Vol. XXXIX., <i>Zeitschrift für Ohrenheilkunde</i>)	448
Report of Societies:	
1. Report of the Meeting of the American Otological Society at New London, May 12 and 13, 1903. By Dr. W. S. BRYANT	451
RICHARDSON: Two cerebral abscesses, 451. H. KNAPP: Mastoiditis with features of osteomyelitis, 452. GRUENING: Cerebellar abscess, 454; cerebral abscess, 454. DENCH: Sinus thrombosis, 455. WHITING: Encephaloscope, 456; MCKERNON: Sinus thrombosis, 457. BULLER: Sinus thrombosis, 459. POOLEY: Sinus thrombosis, 460. REIK: On increased intratympanic pressure, 461. BACON: Sinus thrombosis, 462. RANDALL: Relations of facial canal, 463. MCAULIFFE: A few aural suggestions, 464. BRYANT: Fibroma of auditory canal, 465. JACK: Mastoid retractor, 465.	
2. Report of the Transactions of the Otological Section of the New York Academy of Medicine. Meeting of October 10, 1903	466
ARNOLD KNAPP: Radical operation in a case of exostosis of canal with chronic purulent otitis, 466. HARRIS: Hemorrhage into labyrinth, 467. GRADLE: Clinical experiences with the enlarged pharyngeal tonsil (published in full, p. 422).—Discussion, 469-474.	
Report on the Progress of Otology during the First Quarter of the Year 1903. By Dr. ARTHUR HARTMANN. Translated by Dr. ARNOLD KNAPP	475
General, 475. External ear, 485. The middle ear, 486.
